Summary

I'm an 19-year-old-brazilian passionate about technology and programming, currently pursuing a degree in Computer Science at CESUPA. I've been fascinated by solving problems and creating innovative solutions through programming since I was younger.

My passion for full-stack development has led me to dive into a variety of technologies, including Java, Node.js, JavaScript, React, TypeScript, React Native, and TailwindCSS, with knowledge about API's and MySQL database.

- ✓ Studying at [CESUPA](#) (Third Semester).
- ✓ Junior Full-Stack, keen to learn.
- ✓ Great ability to work in groups, always prioritizing problem solving and great commitment to projects.

Tech Skills

Technologies	Java, Spring, JPA, Rest & Restful API, MongoDB, C, JavaScript, Node.JS and React.
Platforms	Git & Github

Education

- Centro Universitário do Pará (CESUPA) 2023 - 2027, bachelor's in Computer Science
- Java Full Course 2023 - [Udemy](#)

Skills

High quality development, from Back-End to Front-End, as well as integration with APIs, frameworks and databases.

Web

Development of websites and systems with React.js, HTML5 and CSS3.

Sistemas

Development of systems and REST APIs with Node.js and Java Spring.

Languages

Portuguese (native)

English C1 Level (Advanced) - at CNA, from 2013 to 2017 | at Videohou from 2018 - 2020 | at Minds from 2020 - at the moment.

Interests

- Software Development
- Software Engineering
- Web Technologies
- Machine Learning
- Artificial Intelligence
- Data Science
